Botts Mills for Jones. Special to the Gazette.

WACO, TEX., Oct. 9 -Mr. A. C. Pendargest, chairman of the Democratic executive committee for this judicial district, submitted a letter to-day for publication. After giving his reasons for accepting the casirmanship of the Demo-cratic executive committee of this district and stating that he did not suppose any Democrat would be a candidate against Colonel Mills for Congress, he says:

"After deliberation I have determined to cast my vote for what I believe to be the best interest of my country, and I have determined to resign the said chairmanship and openly advocate the election of Colonel E. A. Jones, whom I regard as a better Damocrat and in every way superior, and at the request of Mr. Jones' friends I have accepted the chairmenship of the Independent Democratic committee. In this matter the party lash has been used in vain against me as it has been against many others, and it may be in their opinion that I am a very bad Democrat. Yet I have never been an ardent Prohibitionist and then a violen Anti-Pro ibitionist turn-coat, as Colonel Mills has been, nor have I publicly denounced other Democrats wind have been my supporters because they differed with me on a question which the Democratic state convention declared was no test of their democ racy, as Colonel Mills has done. I have u ver been a Knownothing and denounced Democracy as Colonel M lis has been and done. I have never been a Whig and supparted its doctrines against the Demo-eratic party as Colonel Mills has done. I have never been a Gleenbacker, miking Greenback speeches, and been whipped

A Superintendent Badly Mauled-Both the North and the West Side Lines Practically Tied Up.

Sensational Report that the Anarchiets Are Planting Dynamite Outrages to "Ferror'z; the Capitalists."

TWO GREAT STRIKES.

CHICAGO, ILL., Oct. 9 .- The two great street car systems of the West and North Sides are now tied up. The strike on the West Side began this morning as soon as the last night car was run into the barns. For a time last night it seemed as if this new complication could be avoided and the original strike settled amicably; but the place negotiations which were con-ducted in Mayor Roche's private office failed because the company and men could not agree on the subject of wages. President Yerkes opened the conference with an effort to correct the present system of hours as far as possible. An agreement was reached on this point. when the wage question was taken up the men insisted upon 25 cents per hour for the gripmer, 23 cents for trail and es safe to say that a large crow t will be grip conductors and 22 cents for the horse car mea. Mr. Yerkes offered 20 cents for the horse car men and 20 cents for the grip car men. The strikers refused to make any concession, and after much argument the conference broke up. The committee of the West Side car men was waiting to learn the result, and when the fallute to reach an agreement was reported, their chairman said a strike would be ordered and hurried av. 7. It is said this morning the exacutive committee of the South Side Railway organization has

road company's property.

Up to 11 c'clock to report of any trouble el her on the North Side of the West Side has been received. No cars are running on the West Side, and but few have thus far been started on the North Side. These were guarded by police, but they had nothing to do.

OBSTRUCTI NS ON THE TRACES.

CHICAGO, ILL, Olt. 9-In both visions when the strike began it was ated on behalf of the strikers that no violence would be permitted, and that no obstruction other than that of moral sussion upon those who should take the strikers' places would be used to prevent the company from running cars. So far as the strikers themselves are concerned this promise seems to have been carried out, but the bittercess of feeling toward. the management of the lines appears to increase as time passes, and the centagion has spread to outside elemen s, pays in view the same results, but each operates independent. It is learned that It is from this element especially that the

> This afternoon it developed into the placing of obstructions on the tracks and collisions with the police. At Garfald avenue and Larabse street the first ob-struction was pisced by a number of boys. A large plank was laid across the car tracks and fastened securely by iron spikes. The strikers themselves took no part in the work, but did not into fere with the lads. When six Garfield avenue cars came down they were stopped by the obstacle. The police govern a pairol wagne, but did not offer to remove the obstruction. The strikers immediately surrounded the vehicles and commenced their appeals. Under these influences three of the drivers left the cars and went over to the strikers success of this action led others to follow the boys' example, and a riot resulted at the corner of Garffeld avenue and Orchard street. The streets were jammed with a howling mob, and the tracks were covered with obstructions. Some of the moved the debris, but as fast as it was taken away it was replaced. The mob became so great that the sergeant in comrand of the men ordered a charge. The officers, aggravated some-what, made a rush and used their clubs freely. Men and boys were hit, and hit hard, too, and the women were not spared. A woman, named Wide, who was particularly demonstrative against the new men, was badly wounded by a severe blow. Three men were caught spiking the rails at Halstead street and were locked up. Altogether about filteen cars were run at irregular intervals on the North Side during the day, but very few people rode on them. A COLLISI N.
